Binders And Combines Hum In Wheat Fields

Harvest Operations Now In Full
Swing—Ideal Weather Prevails

Golden wheat fields are rapidly going down before the onslaught of binders, combines and swathers. Farmers north, south, east, and west of Bassano, and also in the Crowfoot, Lathom, Rosemary, Gem, Crowfoot, and Mataspate districts, are in the midst of harvest operations.

A number of farmers started cutting last week, and now the work is general for the two day event.

The swather and combine is being used to a greater extent this year, and a number of these machines are in operation in the vicinity of Bassano. J. King cut a big field with a swather about ten days ago, and is now using the pick-up and combine. T. N. Simpson is now swathing his wheat and Burgeon is also using the swather this year.

E. F. Maurer started cutting Wednesday, and is using binders, a swather, and a combine. He started the combine Thursday, threshing as the grain was cut, but as a little of the wheat was slightly green, he shut down operations until next week.

Crops in the Hassar district are not so far advanced as the Bassano crops, and cutting will not be general there until next week.

Brooks Will Hold Two Day Fair

Wonderful Assortment of Agricultural
Exhibits Will Be Displayed

The Brooks agricultural exhibition will be held next Monday and Tuesday, September 3rd and 4th.

A wonderful assortment of agricultural exhibits will be exhibited, and in addition a splendid program of races, games, and sports has been prepared for the two day event.

The variety and quality of agricultural products grown in the eastern section of the Canadian Pacific Irrigation block is amazing. These may all be seen at the Brooks fair. The irrigation block, of which Bassano is the gateway, is especially favored for the growing of not only grain and grasses, but other field crops such as corn, peas, roots, etc. Garden vegetables thrive in great variety, and fruits such as strawberries, raspberries, currants, citron, watermelon, pumpkin, etc., all do well.

Rosemary News

ROSEMARY, Aug. 30—Quentin Nairn met with a serious accident last Saturday afternoon. He was kicked in the face by a horse, had several teeth knocked out, and chin badly cut, but is doing nicely now. Miss Norton returned from Bassano Monday.

The teachers are again on duty, school opening Aug. 28th. Mr. Oledie is principal and Miss Robinson, of Chisago, the primary teacher. Geala Oledie and Sherry Kellow returned from Alderson Sunday night.

The farmers are busy cutting wheat in this district.

Mr. and Mrs. Copeland and Marjorie Barr returned from Vancouver Wednesday night. Mr. and Mrs. Copeland are making a short visit before returning to Calgary.

Mr. and Mrs. Eastman spent Sunday afternoon with Mr. and Mrs. C. Nairn.

Golf Course Is Now In Fine Condition

Greens Are Better Than They Have
Been For Years

The Bassano golf course is now in good condition for play, having undergone a number of improvements during the past few weeks.

The most important improvement is that on the greens, all of which have been treated with a fresh application of oil seed. The putting surface is now smooth and free from weeds and grass, and the ball runs true.

A long growth of weeds and grass has grown up around many of the greens, but this is being cut, and several greens are already coming into play.

The fairway is in pretty good condition, although here and there a few patches of weeds and long grass, but these cause little trouble.

The irrigation ditch is overgrown with weeds, but with good play the ditch can be avoided.

Three of the tees have been moved. No. 2 has been placed a few yards west of No. 1, green, making a new fairway that is much better than the old one. No. 4 tee has been moved thirty or forty yards south, which eliminates the risk of hitting into the ditch. No. 3 tee has been placed on the rising ground west of No. 8 green, making this hole an iron shot of some 170 old yards.

Now that the mowing season is about passed and the course is in good condition, many golfers are enjoying the game.

Weed Inspectors Insist Fields Must Be Clean

Personal Sew Thistle Constitutes
A Grave Menace

Weed inspectors are warning a battle to prevent the spread of personal sew thistle in this part of the province. There are a number of places here where this particular weed has taken hold, and the inspectors Mr. Boothby, and field supervisor Ewing, are determined that it shall not spread any further.

In carrying on their work of eradicating the weed menace, the inspector and supervisor recently gave notice to a farmer east of Bassano that he must destroy his personal sew thistle. The notice was disregarded, and the farmer was charged with a violation of the weed act and fined \$10 and costs when he appeared before Magistrate A. G. Bond in police court last Friday.

This will doubtless be a warning to others to see that their weeds are destroyed.

The perennial sow thistle is said to be a very bad weed, and once it becomes established in a field is hard to eradicate.

School Will Re-Open Tues. September 4th

Three Changes in Teaching Staff
For Coming Term

The school bell will ring next Tuesday morning, Sept. 4th for the opening of the new term. Retiree Jeanie Bell will again be turned toward the hill of learning from which they so joyfully escaped two months ago, and laden with test books and writing paraphernalia, the boys and girls will again troop back to the school.

Three changes have been made in the teaching staff for the coming term. A new principal, W. King, of Calgary, has been engaged in place of G. W. Foster who resigned to teach in Calgary this fall. Jas. Wright, of Glenora, will teach the senior public grades in place of Roy MacDonald, who is now principal of Calgary school, and Miss Sadie Nelson, a former Bassano school student, will take the classes taught last year by Miss Spence, who is going to Banff. Mrs. O. Hartley will again teach the primary grades, and Miss Violet King has been engaged for another year to teach the intermediate grades.

Countess News

COUNTRESS, Aug. 30—School
opened at Glenora on Monday,

with Donald Macgregor, of Bassano, as teacher.

Gladys Portney, of Gem, Jenny Keener, of Hussar, Frank Chamberlain, Paul, Robert, and Marie, were dinner guests of Mr. and Mrs. Gamble on Sunday.

Mrs. Sol was a Sunday visitor at the Dingley home.

On Monday afternoon Miss Esie Cowen entertained the following friends at her home: (Misses) Carly Gamble, Bernice and Doris Thompson, and Miss Edith Martin, the honored guest, whose home she had called on.

It was necessary to call Dr. Scott, of Hussar, when Geo. Thompson took suddenly ill on Wednesday. We are glad to report that she has fully recovered.

Marie Chamberlain is spending a few days here with her sister, before going to Wexham to teach school.

Mr. and Mrs. F. T. Smith have returned from their trip to Lamont, Alta., where they visited their daughter, Mrs. Harkins.

Get your lunch, bakers ready, kiddies! school opens at Countess on Tuesday with Miss Barton as teacher.

Mrs. Dingley was a visitor at the Gamble home one day last week.

Mrs. A. M. Anderson and Mrs. Ralph Burrows were callers at the home of Mrs. Slaus Saturday.

The wheat is backward in ripening on account of the cloudy weather. Several farmers are cutting, however.

Max Gamble's sweet clover seed was entirely eaten up by worms.

Mrs. May Burrows has been suffering from neuritis.

Missing English Rector "Found" Near Brooks

Rays He Came to Canada to Study
Conditions and His Bishop Knew
Where He Was

Rev. Franklin Hutchison, of Goodfellow, Essex, England, was "found" at Brooks last Saturday.

The Rector was supposed to have mysteriously disappeared from his home in England on July 25th. It was discovered that he had sailed for Cherbourg on August 4th, on board the Empress of Scotland, bound for Canada.

He was traced to Alberta, and finally to Brooks where he was found last Saturday. Rev. Hutchison said that his departure from England was not mysterious, and that his secretary and his bishop knew of his whereabouts.

The Rector said he had come to Canada to study conditions at first hand. He was making observations, particularly with reference to opportunities for young men on Canadian farms, and he intended that he intended to work on the land and in the harvest fields to gain experience regarding the actual situation.

According to Major Cross, assistant superintendent of the C. P. R., demonstration farm, the minister wished to spend his time in Canada incognito so that he could get to understand the life of the country as it affected the ordinary immigrant from the Old Country. He is living in a tent with the rest of the C. P. R. workers, officials of the C. P. R., D. N. B. stated, and he would be to work digging ditches. He proposed to stay in Brooks district about a month.

WHEAT POOL INITIAL
PAYMENT \$5 CENTS

The Central Selling Agency issued an official statement August 27th by E. B. Hannay, secretary and manager, announcing that the initial payment for the 1933-34 crop will be \$5 cents a bushel, based No. 1 Northern, at Fort William and Vancouver.

Harvest Hands Are Stranded At Hussar

Aug. 28—The village of Hussar
laid itself with a real problem

brought on by the arrival of several groups of harvesters from the "Old Country." These men are practically without funds, and at present there is no work for them. Harvesting will not be in full force for another week at least, and the farmers of the community have found the combine harvesters desirable, and so many have invested (one firm alone having sold about twenty) that there will be no work for them. Harvesting is usual for help. In fact, many of the young men of the district have already left to seek work elsewhere.

It was necessary to call Dr. Scott, of Hussar, when Geo. Thompson took suddenly ill on Wednesday. We are glad to report that she has fully recovered.

Marie Chamberlain is spending a few days here with her sister, before going to Wexham to teach school.

Mr. and Mrs. F. T. Smith have returned from their trip to Lamont, Alta., where they visited their daughter, Mrs. Harkins.

Get your lunch, bakers ready, kiddies! school opens at Countess on Tuesday with Miss Barton as teacher.

Mrs. Dingley was a visitor at the Gamble home one day last week.

Mrs. A. M. Anderson and Mrs. Ralph Burrows were callers at the home of Mrs. Slaus Saturday.

The wheat is backward in ripening on account of the cloudy weather. Several farmers are cutting, however.

Max Gamble's sweet clover seed was entirely eaten up by worms.

Mrs. May Burrows has been suffering from neuritis.

There will be services in the Community Hall on Sunday evening at 8:00 o'clock. Rev. A. V. Rhoads, of Calgary, will conduct the services. All are cordially invited to attend.

After a vacation of two months the Sunday school will be reopened on Sunday morning at 11:30 o'clock. All are urged to be present and start the year in the correct manner.

Mrs. A. Anderson was taken to the local hospital at Hussar last Tuesday.

The All meeting at Mrs. Farley's was well attended by members and visitors. An interdenominational service was given; music, Mrs. Keener; reading, "Climb Higher," Mrs. Bell; "Neighbors," by Mrs. Bell; and a prayer meeting.

Nothing delicious could be done about enlarging the kitchen, as there were no funds for the necessary meeting.

It was decided to have a picnic on Sunday. A most delicious lunch was served by Mrs. Farley.

Mrs. Broom entertained the young people of Hussar and district in a birthday party for her son, Archie.

Mr. and Mrs. H. D. Brown and children, and Mrs. Hawshaw motored to Calgary Monday.

Mr. Hoogh entertained Mrs. Vergo, from Calgary, last week. We regret that Mrs. Hoogh is on the sick list this week.

Mr. and Mrs. M. R. Milroy were Bassano visitors Sunday.

HUSSAR, Aug. 29—Four car loads motored out to the meeting held at Mrs. A. Jensen's on Tuesday afternoon. Eight guests and nine members were present. One important question discussed resulted in a motion that the W. I. sponsor an historical contest among the high school pupils of the local school. It was felt that the young people need much practice in this line if they are to be able to take part in the larger competitive year. Mrs. C. Hayes gave a very interesting and instructive report of the convention held in Calgary in May. Mrs. Resor delighted those present with two monologues.

A committee was appointed to arrange for an afternoon entertainment. A committee was appointed to make arrangements for the demonstration in bakery to be held here on September 20th, 21st, and 22nd. A cordial invitation is extended to others and members, to avail themselves of this opportunity as well as to all members. The

Gem News

GEM, Aug. 30—Gem consolidated
school re-opens on Tuesday, Sept.

with Mrs. M. Waldron as principal and C. Douglas as teacher.

Mr. and Mrs. Swanson, of Countess, were guests at the home of Mr. and Mrs. Dodd on Sunday last.

Miss E. Dodd spent Sunday with her parents in the Colony.

On Wednesday last Mrs. Dodd was a caller on Mrs. Keeling.

Mrs. E. Small spent a pleasant Thursday the guest of Mrs. Horne.

P. Williamson is enjoying a couple of days change in Calgary, leaving Tuesday for a business trip.

Our dear Miss C. H. boys are becoming very popular. Some take long prairie trips and others take in picture shows in Bassano, all during the week-end.

S. J. Bentley and son spent the week-end in the Colony, leaving on Sunday morning for Hussar. Mr. Bentley is one of the weed inspectors for this district. He will return to the Colony again for Friday and Saturday.

Signs of fall weather these chilly mornings.

C. P. R. carpenters are again in the Colony repairing offices, etc., all in the farmers' interests.

The new Gem teachers are now completed, and is a very up-to-date and modern building. Mr. Holmes, of Hussar, is the contractor.

There is still some talk of the school and teachers being moved to the centre of the Colony, and no doubt, when the busy season is over, we shall hear more about it.

C. W. Walcott has been absent several days arranging for the sale of his horses.

Several members of the community paid a short visit to C. Jones, in Wintering Hills, on Sunday last. The crops in that and surrounding districts are very heavy, and bumper reports are expected, although some have been slightly damaged by hail and frost.

Miss Irene Maguire returned home on Sunday after enjoying a week's holiday in Wintering Hills, the guest of Mrs. C. Jones.

Colly and Harold Keener were Colony visitors on Sunday last.

Mr. and Mrs. J. H. Keener are receiving medical treatment in the Bassano Hospital.

Miss G. Keeling's many friends in the Colony will be pleased to hear of her safe arrival in Indiana where she is spending a few days with her brother before sailing from New York for England.

next meeting to be held on Sept. 25, will be at the home of Mrs. A. A. Cliffland, with the chief subject "Agassiz." Mrs. Cliffland will give the leading paper. All members are asked to bring in items of interest on the subject. After the meeting a delicious luncheon was served by Mrs. Jensen.

Miss Gladys Hunter has been spending the week with Mrs. Bell.

Misses Evelyn and Vivian Cliffland left last Saturday for an extended motor trip. They will visit friends at Cowley, Spokane, and Pendleton.

Miss Madeline Holland has been on the sick list the past week.

School opens Tuesday, with Mr. Page principal, Miss Larsen intermediate teacher, and Mrs. Farley primary teacher. All children are urged to be present from the first day as the courses are so heavy that daily attendance is necessary if good results are to be obtained.

Mr. and Mrs. Smith have moved into the Williams house while awaiting for their home to be built.

The "Helen home is being painted, and will be one of the beauty spots of the Hussar-Bassano road.

Mr. Bell and daughter Zena and Margaret, went to Calgary Tuesday.

A fire loss estimated at \$4,000 occurred at the farm of E. F. Maurer, 3 miles north-west of Bassano, on Monday afternoon. The large barn was completely destroyed, and the machine shed nearby was threatened with the flames, but the fire fighters saved it.

Fire Destroys Barn On E. F. Maurer's Farm

Damaging Fire Lost Monday of
Unknown Origin

A fire loss estimated at \$4,000 occurred at the farm of E. F. Maurer, 3 miles north-west of Bassano, on Monday afternoon. The large barn was completely destroyed, and the machine shed nearby was threatened with the flames, but the fire fighters saved it.

With the barn, eight sets of harness were burned, and many loads of hay in the machine shed were moved to safety.

The wind carried the sparks to the roof of the house, and the shingles caught fire, but the blaze was extinguished with water.

Two wagons were destroyed. These were standing equipped with the barn, and had some hay in them.

The windmill standing over the well near the barn was also damaged by the blaze.

The fire broke out about four o'clock in the afternoon, when Mr. Maurer and the hired man were away. The origin of the fire is unknown, but it believed it started from spontaneous combustion in the left end of the barn which had recently been partly filled with hay and green feed.

About \$600 insurance was carried on the barn, but the insurance company's fire damage amounted to about \$4,000.

LATHOM COMMUNITY CLUB

The members of the Lathom Community Club met on August 24th at the home of Mrs. M. Warsten. This was the first meeting since the following officers were elected: pres. Mrs. B. Holm; vice pres. Mrs. B. Smith; sec. Mrs. J. Freeman.

A dance was arranged for the first Friday in September, the 28th, in the community hall.

Mrs. Harry Smith will hold the next meeting.

DOUBLE BARRELLED LOVE,
ACTION AND LAUGHTER
IN FOX "GAY RETREAT"

A screamingly funny farce is the only way to describe "The Gay Retreat," Fox Films latest release which has been shown at the theatre on Friday and Saturday, Aug. 25th and Sept. 1st.

This is a story of a war but from the humorous angle and with the most unusual situations ever pictured. It deals with Dick Wright, played by Gene Cantelero, who enlists in the ambulance corps after being turned down by other branches of the service. His chauffeur and valet, also join to keep an eye on him and to prevent him from wandering into No. 10 Land in his sleep. These two body guards are played by Sammy Cohen and Ted McNamara, who scored so emotionally as the merry "making marines" in "What Price Glory."

But their performance in "The Gay Retreat" surpasses even their laugh provoking antics in the great war epic. But they have ample help in creating laughs. There is the Red Cross nurse, Betty Francisco, whom Dick has been in his father's care, and the beautiful French girl played by Judy King.

The performance of this well chosen cast in a short week, Sept. 3 and 4, its heroes, a "hick" detective and a belly, are said to blunder into danger for their home to be built.

"Orchids and Ermine," the gay tale of a telephone girl, is the feature for Friday and Saturday next week, Sept. 7th and 8th.

Value Of Wheat

Contains All the Nourishment That Mankind Needs

Wheat growing is one of the world's oldest industries, says a writer in *The Brit. Man*. At a very early stage in the world's development, discovered that wheat was the most valuable of all cereals. It found that it was not merely a food, but a veritable "elixir of life," for it satisfied his hunger, supplied him with vitality, and gave him physical strength. What primitive man learnt by the practical experience of eating, the modern chemist has proved by analysis. We know now that wheat contains all the nourishment mankind needs, and in the correct proportions. In each grain of wheat there are exactly the right quantities of protein, fat, starch, sugar, and mineral matter. It is obvious that wheat was intended to be our staple food.

If eaten in its natural "grain" state, it would be hard to masticate, and indigestible. Hence milling arose, and the making of bread from flour. There was a time when bread held nothing more than wheaten flour, with the necessary additions of water, salt, and yeast. But modern milling methods, which throw out the valuable coat of the grain, and the intervention of the chemist, with his flour-bleaching chemicals and so-called "improvers," have given us a loaf which is not, as it should be, pure whole wheat-grains in another form.

WAS VERY DELICATE

New Health Came Through Using Dr. Williams' Pink Pills

Mrs. Casper Miller, Lourdes, N.S., says that twice in her lifetime she was nearly dead. She was taken down by Dr. Williams' Pink Pills for her blood. She says that she was going into womanhood when she first took benefit from Dr. Williams' Pink Pills. "I was a sufferer with cramps and pains every month and was hardly able to move around at all. One day when I was very sick and I began to die, and I soon found benefit from them. By the time I had taken them all I was altogether different girl and no longer suffered from cramps and pains. Then for years ago I was attacked with influenza, and was almost dead. Dr. Williams' Pink Pills, and again they brought me good. I am the mother of a family and do all my own work, so you see I have to keep in good health. Depend upon these pills to keep me so. Now I always recommend Dr. Williams' Pink Pills to any of my friends who may be sickly."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or at 50 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

Checked For Air. Some little rifts between the lungs and the chest wall, often caused by the sudden coughing of asthma results. Nothing offers quite such quick and positive relief as Dr. J. D. Kellogg's Asthma remedy. The healing, soothing smoke of vapor penetrates, clears the passages and gives untold relief. It has behind it years of success. It is the sure remedy for every sufferer.

A young man, meeting Benjamin Dierrell, asked: "Have you read my book, sir?" "No," the Prime Minister replied. "I have not, but I shall lose no time reading it."

A Friend to Women

12,900 Reindeer From Alaska To Be Sent Overland

Shortly after the sailing season is over, 12,900 reindeer will be shipped from Alaska to the shores of Hudson's Bay, according to N. A. Branson, of the Dominion Reindeer Company. This is due to the rapid increase of the herd of 1,249 animals started in Alaska thirty years ago. Progress will be slow, the herd travelling about ten miles per day. But, first, the shortest route must be found and charted.

Plentiful in B.C. Waters

Mr. Justice Aulay Morrison, of the supreme court of British Columbia, has been appointed a royal commissioner to inquire into the question of pilotage in British Columbia waters. It was announced at Ottawa. The appointment of the commissioner implements a recommendation made during the last session of parliament by the marine and fisheries committee of the House.

British Immigration

Conference Between Lord Lovat and Ottawa Authorities Brings Results

When the immigration conference between Lord Lovat, head of the Empire Settlement Board, and federal immigration leaders concluded at Ottawa, an official statement was issued, saying: "It is confidently expected that the result of these negotiations will be a steady increase in the flow of suitable British migrants to Canada."

The conference discussed various matters arising out of British emigration to and settlement in the Dominion with particular reference to the measures to be adopted both in Canada and in Great Britain to give effect to the recommendations of the select standing committee of the House of Commons on agriculture and colonization. All these recommendations and other proposals made by Lord Lovat have been fully and frankly discussed, with a thorough appreciation of the difficulties on both sides and in every line of satisfactory understanding had been arrived at, the statement said.

Aviators To Return

Members Of Hudson's Strait Expedition Leaving For Home

Preparations have been completed for the return to civilization of the aviators attached to the Hudson's Strait expedition. The planes will come down the eastern shore of James Bay and will follow the natural waterways from Moose Factory, Ontario, to the ice-bound coast.

The flight will, it is expected, take three days and the five planes probably will leave a day apart. Chances are good that the expedition will have been placed at several points along the shores of Hudson's Bay and James Bay.

The aviators will fly by day only and every effort has been made to render the night safe, officials declared in Holloway, Corn Bore.

Daily weather observations have been made by the flyers for the past year from the flying base at Port Burwell, Wainman, Bay and Nottingham Island. Their reports at August 21st indicate that the channel had been clear of ice since the end of June.

If one is troubled with corns, he will find in Holloway's Corn Bore an application that will entirely relieve suffering.

Reforms In China

Women Must Not Hair and Remove Bindings From Feet

The municipal bureau of public safety has decreed that Peking women under 30 years of age must both their hair or pay a "degeneracy tax." The order became effective Sept. 1. It is meant to discourage the old Manchu style of hair dressing and counteract the ruling of General Chu who has been ordered to remove the bindings from their feet within the next few days or pay a periodical fine.

The mayor, Ho Chi-Kung, is determined to eliminate feudalistic habits still adhered to by some of the Peking people. He has ordered that men who insist upon wearing queues must pay a heavy monthly tax and women who remove the bindings from their feet within the next few days or pay a periodical fine.

Heavy Apple Crop

Increase Of Almost 900,000 Boxes Of Apples From Okanagan District

An increase of almost 900,000 boxes in the shipment of apples from the Okanagan fruit district is indicated in a report made today by T. P. White, superintendent of car service, Canadian National Railways, Winnipeg. The latest estimates indicate that the "Mclintock" crop will amount to 1,252,400 boxes as compared with 738,493 boxes last year, or an increase of 513,907 boxes or 69 per cent. The total apple crop, which comprises largely the "Mclintock" and the "Wealthy" brands, is estimated to amount to 3,800,000 boxes this season, which is an increase of 890,845 boxes over last year.

A Prime Dressing For Wounds.—In some factories and workshops care is taken to provide for use in cutting wounds and cuts sustained by the workmen. Far better to keep on hand a bottle of Dr. Thomas' Electric Oil. It is just as quick in action and will not scar the skin or burn the flesh.

No Menace To Consumer

British Delegate Returns Home Favorably Impressed With Wheat Pool

"We do not share with those who see in the pool the menace of a monopoly to the disadvantage of the consumer," writes Henry J. May, general secretary of the International Co-operative Alliance, who was one of the principal speakers at the recent international wheat pool conference in Manchester, England.

Mr. May expresses his views in the Co-operative News, published in Manchester, England. He states that the economy of production on large scale methods, the elimination of the middlemen's profits and improvement in selection of seed made it possible for wheat pool members to reap larger profits from their crops and at the same time to give better values to the consumer.

Supplies For Northern Posts

Schooner Sails From Vancouver On Mission For R.C.M.P.

The new auxiliary schooner St. Roch, of the R.C.M.P., has set sail from Vancouver to carry fresh provisions and supplies to the posts in the R.C.M.P. It is manned by a crew of 18 officers and men headed by Captain W. H. Clifton, Vancouver, and P. Kelly, chief engineer. The course set for the northern trip is through Bering Straits and around the northern coast of Alaska to Herschel, Yukon territory. By radio the floating detachment will keep in touch with headquarters at all times. Members of the R.C.M.P. comprising the crew include Constables T. G. Parson, M. J. Olsen, Larsen, Taylor, Foster, Sealey, Barry and Lamboe.

Many infants are infected by worms without their parents knowing it. It is not promptly dealt with may cause constitutional weakness and general debility. Miller's Worm Powders will clear the stomach and bowels of worms and will so act upon the system that there will be no recurrence of the trouble. And it is so simple that they will repair the injuries to the organs that worms cause and restore them to soundness.

Chaired By Wolf

Jim Curran, editor of *Sault Ste. Marie, Ont.*, who offered \$100 for an authentic story of a wolf or a bear attacking a man, was himself recently chased in his car for more than a mile by a wolf.

Deep sea is blue because it reflects the blue rays of light. When it is green it is not so deep and it is the reflection of the yellow sand or pebbles at the bottom which makes it this color.

Planting Trees On Highway

One Of The Most Beautiful Driveways In Western Canada Planned By Mr. Pat Burns

The main south highway from the Calgary city limits south to Midnapore, some ten miles, will be transformed into one of the most beautiful drives in Western Canada with in the next two years as a result of the decision made by Patrick Burns, well known pioneer cattleman and rancher, to plant trees on his land, which skirts both sides of the highway clear through to Midnapore.

Work of preparing the land for the tree planting is already under way, and the first trees will be planted next spring. The section between Calgary and Midnapore will be completed next summer, and it is possible that Mr. Burns will extend his activity further south the following year, as he owns a considerable amount of land south of Midnapore. Russian poplars will be used with maple, planted here and there.

Protect the child from the ravages of measles by using Mother's Grain Worm Exterminator, it is a standard remedy and its use has enhanced its reputation.

Year's Shipment Of Wheat

In the 1927-28 crop year ended July 31st, last, a total of 281,000 bushels of wheat was handled through the elevators at the port of the Great Lakes, situated at Port Arthur and Port William, Ontario, on Lake Superior.

NEW All the way through

In Design - Performance and Beauty

THIS new McLaughlin-Buick is a radically new and individual conception of the modern automobile. A dazzling new type of motor car beauty unlike anything heretofore known—longer, larger, more luxurious bodies, true masterpieces of Fisher design—wider rear seats providing plenty of room for three adult passengers—a tremendous increase in power, getaway and flexibility—these are highlight features of this most brilliant of new car creations.

A new and deeper radiator of distinctive design—striking new chrome-plated headlamps and cow-lamps—streaming new lines and colors—all combine to lend an air of distinction, poise and distinction utterly new to automotive design.

And in performance, too, the new McLaughlin-Buick outshines all previous achievements. Power, speed, acceleration, flexibility, stamina—all are greatly increased—all are united and co-ordinated to a hitherto unknown degree.

In addition, the 1929 McLaughlin-Buick introduces a host of engineering refinements, including a new high-pressure gas-pump—new carburetor with two high-speed jets—new, carburetor-chamber and improved steering gear—steel backed main bearings—and many others. See the 1929 McLaughlin-Buick. Drive it. Make it yours. Car and rest assured there is none in the world that surpasses it.

The C.M.A.C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

It is held signed the treaty to outlaw war, but it is signed by the same men who have been back and forth for years.

We read in the "oriental column" that a very green, called the puff or defends itself who is danger by suddenly assuming the appearance of a balloon. Now wouldn't it be nice for the puffer to be able to suddenly assume the appearance of a five-ton truck?

DESTROY THE WEEDS

Weed inspectors of the provincial and municipal governments are making a strong effort to prevent the spread of noxious weeds in Alberta. Their aim is not only to prevent the spread of weeds, but to reduce the weed crop, and eliminate it if possible.

The weed inspector examines each farm, and if he finds thereon certain noxious weeds, he notifies the owner that these must be destroyed. If his instructions are not carried out, the owner is brought up in court on a charge of violating the weed act.

A case of this kind occurred in the Bassano police court last week. The farmer was fined, and again given notice that he must destroy his weeds.

It is only by such rigid methods that the weed problem can be brought under control. The provincial government wishes to protect the agricultural areas of the province from the weed menace, having learned from the experience of other provinces that weeds may cause a serious curtailment of agricultural development.

Certain sections of the province of Manitoba are cited as examples of what may happen through allowing weeds to spread. Years ago these areas were free from weeds, and beautiful crops of good quality grain were raised. Weeds spread to every farm in the district, choking out the crops and reducing the yields, and causing the farmer a great amount of labor and money in trying to eradicate the pests. Today these areas which at one time had a high average, now produce only about half their former average. While this is partly due to the damage caused by rust, weeds have been a very important factor in causing the reduction. Soil depletion due to continuous cropping to what is another factor, but a small one in comparison to the others.

By a rigid weed control policy and the co-operation of the farmer, it is hoped that Alberta will avoid the experience that befell Manitoba.

ENTERING HIGH SCHOOL

Thousands of young men and young women will enter high school this year, and if they are the right kind of young people they will get the right kind of thrill from this experience.

Entering high school is an epochal event in the life of anyone who is blessed with the opportunity. Most students never get beyond the graduation period in the high schools. After that they either go to work or loaf or do a little of each.

A great many young people who enter high school never graduate, and that is a very and misfortune. The first day in high school marks the beginning of an important event in the life of the young man or young woman who enjoys the privileges of acquiring this important education.

There will come a time in the history of this country when a young person without a high school diploma is going to find things pretty hard in this life. For education is the stepping stone to success and independence. Those who enter upon high school life today are to be congratulated. They are marching upon a royal road and paving their own life's highway, so that when they step out into the world they will be better equipped to learn the real game of life, where the way is sometimes rough and dangerous.

Wrong Victim
Jack: "I called on Mabel last night, and I wasn't any more than inside the door before her mother asked me my intentions."
John: "That must have been embarrassing."
Jack: "Yes, but that's not the worst of it. Mabel called from upstairs and said: 'That isn't the one mother.'"

SOME LATER INFORMATION ON SELF FEEDING HOGS

(Experimental Farms Note)
The practice of self-feeding the meat ration from the time the pigs are weaned until they are finished has, in the great majority of cases, resulted in a smaller number of self fed pigs being produced than when a similar meat ration is trough-fed. On the other hand, trough-fed pigs receive their feed at stated intervals during the day and, as there is often much crowding, the stronger and more vigorous individuals obtain more than their share unless the attendant is on hand to prevent this. It is a common observation that the self-fed pigs are more uniform than the trough-fed pigs, but that they are shorter and less suitable for the production of Wilshire sides. This is because all the pigs get all the

feed they desire, and unless this feed is conducive to the growth of frame and muscle, they will develop into short, thick hogs.

It is usually accepted that a ration of good variety which contains about 21 per cent of protein is about right for young weaned pigs, and also that the protein should be gradually decreased until about 15 per cent is fed during the finishing period.

As a matter of fact, these figures appear to be somewhat lower than is required for the maximum growth and development of bacon hogs, which are finished when about 200 pounds in weight.

A test recently completed at the Central Experimental Farm at Ottawa, in which a ration of meal and milk which contained 24.5 per cent of protein for weaned pigs, and this gradually decreased to 22.5 per cent for the pigs when finished, was decidedly superior to a ration containing 20 per cent for weaned pigs and gradually reduced to 15 per cent. These were self-fed.

The self-fed hogs on the higher protein ration attained an average weight of 317 pounds, when slightly over 20 months of age and were quite well finished. Pigs of the same age and breeding which were trough fed identically the same ration continued to grow and failed to finish for another three weeks, this indicating that the ration was relatively too high in protein for finishing trough-fed hogs, but about right for the self-fed hogs. While there, must necessarily be a gradual reduction of the protein constituent, or a widening of the nutritive ratio, as the feeding period advances care should be taken to maintain a relatively higher protein content when self-feeding the ration than when it is trough-fed in order to produce a good type of bacon hog.

"What do you think of his tennis?"
"Oh, I think he's singularly bad in doubles, and doubly bad in singles."

Month's Progress of the Canadian Medical Association

Adenoids.
During the summer months, the symptoms caused by adenoids are not as noticeable as in winter. They are referred to now because this is an opportune time for having them attended to.

Adenoids are tumour-like growths that develop in the passage between the nose and throat. Very young children may have adenoids. The majority of cases occur in children from eighteen months to six years of age.

The presence of adenoids usually causes what is apparently a chronic cold in the head, with a great deal of discharge from the nose. These symptoms, with snuffles, occur during the winter season. Cough is frequently associated with the condition. If the growths are large, the child will be a mouth-breather, breathing through the mouth day and night, because the natural breathing passage through the nose is blocked. This gives rise to snoring.

In advanced cases, the child has a characteristic appearance of the face. The open mouth gives a stupid expression, the nostrils are small and pinched, the upper lip is thickened. The hearing may be impaired. Bad-breathing may be part of the symptoms.

Complete removal is the only treatment for adenoids of any severity.

Parents who have been advised by their physician to have an adenoid condition corrected in their child should "do so." Parents of children who show evidence of adenoids, as described, should have their child examined to find out the condition. The treatment of such a condition is advised because it interferes with the normal development of the child, lowers his level of physical fitness and, if severe, results in permanent deformity of the mouth and face.

Questions concerning health, addressed to the Canadian Medical Association, 181 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

Pass the Earbuds!
"Does your radio make an awful chattering noise?"
"Yes, it's just like one of the family."

New POWER New BEAUTY in General Motors' Lowest Priced Six

PROVIDING even finer performance, revealing even smarter style and built by General Motors under manufacturing processes unsurpassed for precision and accuracy... today's Pontiac Six represents a value like of which has not been known since the beginning of Pontiac history.

To the sound basic design which has made Pontiac Six internationally famous for sturdiness and long life—to those important advancements, such as the G-M-R cylinder head... Pontiac has added improvements leading to even greater power and to smoother performance.

To the inherent style and beauty of Fisher bodies—to the effective symmetry of sweeping fenders and high, straight hoods—Pontiac has added the features of new Duo Cords and the newish air of smaller, smarter wheels and oversize tires.

The lowest priced six of General Motors has won the phenomenal success by always reflecting General Motors' ability to build a better car for the money. Now it offers new power and beauty. See it and drive it today.

WINTER PIG CHILTERS. (Experimental Farms Note)

Sheds, cabins, pig pens and straw stacks have been used at the Dominion Experimental Station at Southern for winter pig chilters, and the straw stack has been the most satisfactory. If it is not possible, to have a straw stack, one of the other shelters must be resorted to. A shed affords partial protection from the wind, but enough straw must be provided to cover the pigs at least a foot and it must frequently be renewed. A cabin is better if kept nearly filled with straw. A pig pen at best is an expensive structure and must be carefully constructed or moisture accumulates on the ceiling and walls and sickness follows. A pig pen or some warm building such as a stall in a horse stable is necessary for a farrowing pen of early pigs but it is not necessary for growing or mature pigs. A most satisfactory shelter may be made by supporting a platform of poles about twelve feet square on posts three feet high and throwing a straw stack over it. Preferably of wheat straw. Such a shelter is comparatively inexpensive, requires no attention all winter, is dry, and is perfectly ventilated.

"Hi, mister," called the driver of a big, hair-busted dog. "Will you kindly hold my horse' head for me while I get down?"
"The man on the pavement hesitated."

"Well, I'll do my best," he said. "I don't know much about horses, though. Er— which one shall I hold?"
"Pick 'un," replied the driver.
"Dear me, poor thing," exclaimed the man on the pavement. "Do you mean this sad looking one?"
"No, I don't," replied the driver. "I said the off 'un, didn't I?"
"Yes, I know you did," replied the other testily. "but as I wasn't at my parent's funeral, how the dickens am I to guess which is the orphan?"

Nerlic Economy
One of the neighbors recently overheard two of her small sons discussing the story of Adam, Eve, and the Fall. A little while later Bobby, not quite seven, asked, "Mother, where made God so tight with his apples?"

Here and There

(11)
The Maritime Livestock Market was organized in March, 1897, to the three Maritime provinces—Nova Scotia, New Brunswick, and Prince Edward Island—and some cattle for 7,000 members of every single club in the three Maritime provinces. The report of the first year shows a SHEET received for 1935-36, 13,311 hogs, 10 calves and 411 cattle.

An extension to the air express service, maintained by the Canadian Pacific Express Company has been announced, and a new air line will be opened early in September between New York, via Albany, and Montreal. Lines are already operating between Montreal, Montreal, Toronto, and Ottawa.

A name of unusual distinction will be added to the Canadian Pacific's Royal Family of ocean steamships when the fourth 3,000-ton vessel of the new "Duchess" class is launched in Scotland. She will be named the "Duchess of York," and will be christened by Her Royal Highness the Duchess of York herself. The ship's name being recently changed from the "Duchess of Cornwall."

Despite the double of harvest supplies, the grain has been more abundant by the sight of a wheat stack. Such a shelter is comparatively inexpensive, requires no attention all winter, is dry, and is perfectly ventilated.

Part William, Ontario. — Three grain elevator corporations with large interests at the head of the Lakes are involved in a merger of several powerful Canadian terminal and elevator companies. The new company being known as the Canadian Consolidated Grain Company. A total of 1,000,000 bushels of elevator capacity will be owned and operated by the new company.

Betty and Buster Brulin, two little black bear cubs, have called from Montreal to Italy where they will be presented to the Marguerite de Fiesco, the famous Italian opera singer. They are weanling babies, scarcely larger than a child's teddy bear, but they are available disposition. They were obtained by Mr. R. H. Brown, the Montreal, through the General Tourist Department of the Canadian Pacific Railway, and are similar to the little bears sent over by him a few years ago to Muscatini.

The Dominion Government is going to begin bird breeding with the object of training these birds for purposes of bird hunting. The Department of National Defence is to have charge of the work. The Civil Service Commission has announced an open competitive examination for a pigeon messenger in connection with the civil government air operations of the Department of National Defence, to organize and administer a pigeon communication service.

Can Canada Goose makes remarkable migratory flights but it is not generally known that civilization has no effect on the habits that sometimes he travels by railway. A pair of wild geese journeying this modern luxury passed through the Windsor Station, Montreal, under the proverbial wing of the Canadian Pacific Express in a specially constructed crate. There was a number of bird sanctuaries throughout Canada and the United States where phoned geese are kept to reassure their comrades that all is safe and secure for them to stop and rest on their flight north and south.

Plans are reported to be on foot among sheep raisers to establish a Yukon wool grading center similar to that functioning in Trenton, Ontario, where at present most of the wool business of Canada is conducted. An authority states this would probably have the result of increasing the returns to the producer from 25 to 35 per cent.

Although the automobile is sometimes said to be a step to the railroad, it gives the latter a great deal of trouble. The number of freight cars used by the Canadian Pacific Railway for the transport of automobiles has doubled during the past five years, and the latest order of 800 new cars for the company has just been completely filled.

Trans-Atlantic records have been made by two new vessels, the "Duchess of Bedford" and the "Duchess of Athol," the first two of the new cabin class chartered to be built by the Canadian Pacific Steamships. The former has just accomplished an eastbound voyage from Liverpool to Montreal in six and a half days, while her sister ship, enroute at the same time, makes a westbound crossing from Montreal to Liverpool in six days, 22 hours.

The second school car operated jointly by the Canadian Pacific Railway and the Ontario Department of Education has been named the Anne Ross School. Mounted for service in the district west of Port William. The car is a modified first class coach equipped with an up-to-date "little red schoolhouse" with blackboards, globe, school books, reading desks, and a portable library for the use of students and adult visitors as well; and comfortable living quarters for the teacher. The school car is able to reach remote areas where permanent school facilities are not available.

All in The Family

"What is your brother doing now?"
"He keeps a rabbit farm."
"How is business?"
"Increasing."
"Has he much capital?"
"Quite a sum."
"How did he make it?"
"Speculating in England."
"In what line?"
"He ran a weight-guessing stand in London."
"What was the turnover?"
"Thousands of pounds per day."
"I thought he went with the Olympic team?"
"He tried, but they turned him down."
"Why?"
"He was a rum runner."
"Where did he learn this game?"
"He ran a ferry boat in Scotland transporting the Scotch."
"Wasn't there any danger from tipping?"
"Gins at all, he says."
"I thought he was a direct car conductor?"
"He could be if he wanted the job."
"How so?"
"He plays the pipe organ, so he knows all the stops."
"Oh, he's a musician, is he?"
"Yes, why don't you go and see him?"
"Where does he live?"
"In an apartment house."
"What does his card say on the mail box?"
"A Sharp in E Flat."
—Sudbury Star

Here and There

Lumber companies report the greatest volume of business in Alberta since the boom year of 1915. One hundred million feet of lumber is being cut in Alberta this year but the industry is not so optimistic as British Columbia mills.

A press report from Telfordville stated that the farmers are well pleased with the allocation of money to the twenty mile extension to the Hoadley subdivision of the Canadian Pacific Railway. A large number of acres have been added to the territory which will be served by this extension and the old timers in the district are now clearing and breaking as much land as possible.

Kyobet Kato, who represents a "Yokohama" and who has just concluded a business mission to Canada, stated that he had bought 1,000,000 bushels of wheat in Canada, or about half of Japan's total importations. He explained that Japan got more for its rice than it could get for its wheat. That he had, hence the present purchase. He said, too, that Japanese were doing more and more and adapting themselves to the stronger diet.

"The Maritime Provinces in particular, and Canada in general, need more commercial advertising," was the opinion expressed by Hon. J. B. M. Baxter, Prime Minister of New Brunswick, when interviewed on arrival on board the "Empress of Scotland" after a month's visit to Europe. British officials in the Maritime have been quite satisfied on regarding type and quality. He said, and he added that we will be able to obtain a great many more approved over a period of years.

Part of a litter of eight red foxes, together with the vixen, were captured in the Arctic delta of the Mackenzie River. The foxes were captured by Mr. W. White, who has established a fox farm east of the Arctic delta. The foxes are red foxes bred at large in their natural habitat. The source of this purchase, where there were captured. Mr. White intends to start raising catch foxes, a cross between red and silver or black fox, as a commercial enterprise.

Wool growing in Western Canada is increasing rapidly, according to W. Thomson, manager of the Western Branch of the Canadian Co-operative Wool Growers Limited. Up to June 30th, he pointed out, four carloads of wool had left Regina for Western Ontario, for grading by Government authorities as compared with one for the similar half year of 1937. "This year's shipments," said Mr. Thomson, "will be 100,000 lbs. as against 100,000 lbs. in 1937."

The myrtle number "13" holds no terrors to the Royal Order of Jeaneau, as exemplified within the Innis Temple Shrine of Buffalo, who called on Friday the "Tenth of July" with thirteen members in their 137, from Montreal for Jeaneau. The society meets on the thirteenth of each month at 6:15 in the afternoon, and is divided into courts of 13 members each. The 13th of July is the day when the crack new Canadian Pacific liner "Duchess of Cornwall" is a group of Britishers visiting the old world.

Scientist Smith, who is successfully producing new plants of corn, wheat, and barley, has been awarded a medal by the Government of Alberta. He has one acre under wheat, one acre under corn, and one acre under barley. He grows fifty varieties of corn and has about a quarter of a million bushels of seed growing.

The Alberta Amateur Championships will take place shortly at Banff, Alberta, where annual Highland dancing and Scottish Music Festivals have been held from August 21 to September 2. An elaborate programme has been arranged of a Scottish character, many of the athletic contests being peculiar to that race, such as clog dancing and putting the shot.

Notice

NOTICE TO CREDITORS AND CLAIMANTS
IN THE ESTATE OF HARRY EDWARD CHAPMAN late of South Orange in the State of New Jersey, one of the United States of America, Bank Broker, Deceased.
Notice is hereby given that all persons having claims upon the estate of the above named HARRY EDWARD CHAPMAN, who died on the 16th day of November A. D. 1937, are required to file with the undersigned by the 10th day of October A. D. 1936 a full statement, duly verified, of their claims and of any securities held by them; and that after that date the Executor will distribute to the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to their attention. Dated this 18th day of August A. D. 1935.

Bassano, Alberta.

Know Women
"You seem to be an able-bodied man, you ought to be strong enough to work."
"I know, mum. And you seem to be beautiful enough to go on the stage and suddenly you prefer the simple life."
After that speech he got a square meal and reference to the wood pile.

Boiling Oil Too Merciful

"Well, madam, why don't you wish to serve on the jury?" asked the Judge.
"I'm opposed to capital punishment."
"But this is merely a case in which a wife is suing her husband for an accounting. It seems she gave him \$500 to pay down on a handsome fur coat, and he is alleged to have lost the money at poker."
The woman juror spoke up promptly: "I'll serve. Maybe I'm wrong about capital punishment."

Worse and Worse
He (at big party): "I made an awful mistake just now."
"I told a man I thought the best was a light blue blighter, and it happened to be the best I spoke to."
She: "Oh, you mean my husband."

Local News

Two patients from Chany, Leslie Taylor and Miss Helen Thompson, underwent operations for appendicitis at the local hospital this week. They are both improving.

Miss Blanche Gate, of Wardlaw, is a patient in the Bassano Hospital for an operation.

Duchess News

DUCHESSE, Aug. 26 Quite a number of families went to Steveston Sunday and spent the day.

Mr. Neely, of Brooks, had charge of the services at the Union Church Sunday.

Mr. and Mrs. Villard motored to Bassano Saturday afternoon. Mrs. Gahan and Marjorie, and Mr. Cathie went with them.

Miss Marie Piew and Mrs. Burdick returned from Bassano Monday night.

Mrs. Harold Ford spent a few days with Mrs. McKinnon the first of the week.

Mr. Penny, our new school teacher and his wife came down from Calgary and are now living in the Christian-sen house.

Miss Olga Hole spent Tuesday in Brooks.

Mrs. McKinnon was in Brooks Tuesday.

Mr. and Mrs. Elmer Blason entertained relatives and friends Sunday from across the river.

Mr. and Mrs. Jaharuk, of Gem, spent Sunday at the home of Mrs. Kuch and family.

Mrs. Dunsmore and Mrs. Gahan were dinner guests at the home of Mr. and Mrs. Harry Gahan in the country.

Mrs. Halley and Mrs. Howe left on a motor trip for Calgary Wednesday morning.

Mrs. Abrahamson, who was operated on in Medicine Hat, is doing very well.

Work on the new Union Church is progressing nicely.

Friends of Miss Evelyn Hole will be interested to hear of her marriage on Saturday August 26th, in Calgary to Mr. A. R. Wintle. They will reside in Brooks where Mr. Wintle is bookkeeper in Mr. Bark's office.

THE GOLDEN CITY

Two aged men, that had been foes for life,

Met by a grave, and wept—and in those tears

They washed away the memory of their strife;

Then wept again the loss of all those years.

Two youths discouraging amid tears and laughter

Poured out their trustful hearts unto each other;

They never met before, and never after,

Yet each remembered he had found a brother.

A boy and girl amid the dawning light,

Glanced at each other at a palace door;

That look was hope by day, and dreams by night,

And yet they never saw each other more.

Should ghostly spirits born for one another

Meet only in sad death, the end of all?

Should hearts that spring, like rivers, near each other

Yet far apart into the ocean fall?

—Tennyson.

She, after spending the evening with the neighbors: "I think the Smiths are an ideal couple—they think alike about everything."

He: "Yes, I noticed she always thinks first."

Alfred: "In New York a man is run over by a motor car every twenty minutes."

Albert: "Poor fellow."

"Was Bill's marriage a happy one?" "I guess so. He was still smiling when he left the church."

TO RENT—Room and board; hot and cold water; apply to Mrs. Gregg, box 22, or phone 81. 6-6
